The MAILING DATE Period for Reply	of this communication app	ears on the cover sheet with the c	orrespondence ad	ldress		
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).						
Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5, 21 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Groiso (U.S. Patent No. 5,993,476).

Groiso discloses a clip that has at least two straight engagement legs (14), extending parallel to one another in a first direction (same direction the legs point) including respective distal bridging tips and respective proximal insertion tips as well as a connecting bridge coupled to the distal bridging tips of the two engagement legs that are at least two elongated sections (40) extending along side on another generally in a second direction substantially perpendicular to the first direction. The elongated section having a non-linear outline having a curved shape (Fig. 1 below) and includes one of a depression and a dome (see Fig. 13). Also disclosed is that the engagement legs and the connecting bridges are constructed from a biocompatible material (Col. 4, Paragraph 2). Furthermore, the two elongated section includes respective bulges that together form a space of separation between elongated sections. Applying a force to the elongated sections of the clip in an area of the non-linear deformable region causes the proximal insertion tips to pivot which can be seen in figure 17. The force is selected from at least one to separate and to unite the two elongated sections. Also disclosed

Application/Control Number: 10/634,410

Art Unit: 3733

are the engagement legs that are provided with gripping surfaces (41) for frictionally engaging the bone tissue fragments

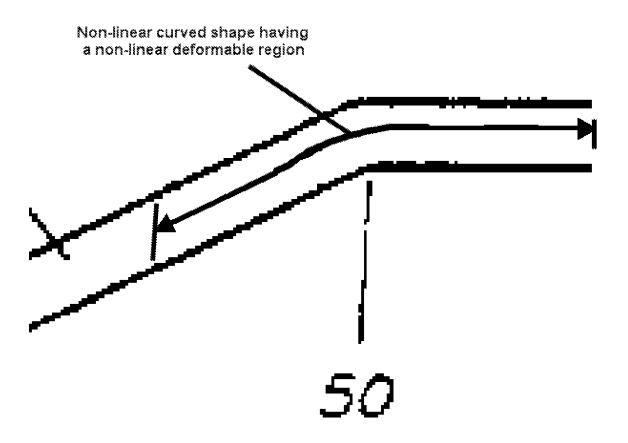

Fig. 1 View in a third direction (coming out of the page) perpendicular to said first and second directions

Response to Arguments

Applicant's arguments filed March 13, 2008 have been fully considered but they are not persuasive. The amendments made to claims 1 and 21 do not overcome the prior art and do not place the case into condition for allowance. Groiso ('476) shows a curved region in Figure 1 above, which is a blown up version of Figure 13. This specific section shows what is being claimed in the independent claims. Therefore the

elongated sections are considered to be having a non-linear outline having a curved shape forming a non-linear deformable region when viewed from the side of the device as seen in Fig. 1 above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL J. ARAJ whose telephone number is (571)272-5963. The examiner can normally be reached on M-F 8am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eduardo Robert can be reached on 571-272-4719. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
